The Healthcare You Need At
Prices You Can Afford

Packages

PTCA and Stents

Our package price for a Cardiac Cath, Balloon Angioplasty, and medicated cardiac stent is \$8500 USD. Prices are subject to change depending upon conditions encountered and your unique clinical setting. Approved by the FDA, a new medicated stent, designed to keep arteries open, is considered by cardiac experts to be the biggest development in coronary care in the past decade. The new stents are coated with medications which prevent recurrent blockages in the arteries. Clinical trials have shown that re-narrowing occurs in less than five percent of patients with the medicated stents. Without the medicated but a using a normal stent the price is \$5000 USD. This price includes 8 hours of recovery in the Intensive Care Unit.

Ramkhamhaeng (pronounced ram-cam-hang) Hospital sits at the center of one of Thailand's largest and most respected hospital groups. With 350 beds and seven sister hospitals Ramkhamhaeng has the resources, experience and expertise to provide international quality health care at very competitive prices. This combined with a long tradition of Thai hospitality has earned Ramkhamhaeng Hospital the confidence of the people of Thailand, the Region, and the World.

Thailand has gained renown for all forms of cosmetic surgery, cardiac care, and other types of specialized medicine. Ramkhamhaeng Hospital has many internationally trained doctors with world-class credentials. In this era of jet travel, computers, and the Internet, Globalized medicine has arrived. We offer world class healthcare in a beautiful tropical setting at a fraction of the cost of the USA or Europe. If you pay your own medical bills because it is an elective surgery or you are uninsured and don't have or can't get insurance
